

# **UQ ENTERPRISE DATA ETHICS FRAMEWORK**

CREATE CHANGE

The Enterprise Data Ethics Framework provides clarity around what can and can't be done with data, ensures consistency and accountability in decision-making, and fosters trust among the wider UQ community.

## How will the Enterprise Data Ethics Framework help you?

Streamlined approvals for accessing data

Confidence in assessing potential ethical issues

Clarity around appropriate data collection and use

Recognising sources of bias to improve veracity of analysis

## Using Data Ethically Website

The Using Data Ethically information hub on the Data at UQ website hosts a range of support materials, including:

- Enterprise Data Ethics Framework
- Links to internal and external training
- Point-of-need support resources

$\mathbf{\Lambda}$	Minimising potential adverse outcomes for data subjects
<u>'!</u>	outcomes for data subjects

Ensures accountability and compliance with legislation

Fosters trust among the University community

Provides avenues for further support and advice

#### **Data Ethics Assessment Tool**

This survey based tool guides a user through a series of questions about their data collection or use activity.

After completing the questions, the user is presented with a tailored report outlining relevant ethical considerations.

#### Need assistance?

The Data Strategy and Govenance team in Information Technology Services is able to assist with any queries relating data ethics, or other data issues.

datagovernance@uq.edu.au

🜐 data.uq.edu.au

The Ethics Advisory Group is also able to provide advice on data ethics matters.

## Staff Development Training

The Data Ethics: What does it mean for you staff development training sessions are offered regularly.

These sessions help develop ethical decision-making skills by working through case study exercises.
